John:

Any chance that we could move the start time to Thursday 2:00-2:30pm instead?

Chuck

Chuck,

Sound good. That time will work for us. We are planning on a call at that time. Would you have a conference call line you would like to use?

Thanks.

John

Hi John:

Quicker is better for me. I sent Douglas Minter a calendar placeholder for this Thursday (6/13/19) 3:00-4:00 mountain time. Let me know if that works for you and Hal.

Chuck,

Would you be able to discuss this week either Thursday or Friday with myself and Petrotek? (Hal has a conflict 1:30 to 5:00 PM Friday) Otherwise perhaps we can catch you next week?

Thanks.

John

Hi John,

I passed your voicemail along to Chuck, since it is his concept. I think he wants the top of the confining zone to begin above the shales with the gamma signature, as opposed to drilling part way into the shales, as shown in the PowerPoint I sent, based on the depth in the injection zone shown in figure M-1.

I will forward your request for a call next week along to Chuck, too. I will be out of the office next week.

Valois,

Would it be possible to schedule a teleconference with you and Chuck to further discuss Class V. We would be looking to have Hal Demuth and Wes Janes also on the call. I think they could help better explain Class V well construction.

Can we schedule something for Thursday and Friday of the next week (either June 13 or June 14)?

Please let me know.

Sincerely,

John
